

Zintronic

Zintronic D8

D8 IP PoE camera is perfect for surveillance systems. High-class image quality is guaranteed by Sony IMX415 8 megapixel sensor and 2.8mm lens allowing a wide viewing angle of 109°. The whole is enclosed in a small metal housing providing vandal resistance and IP67 rating.

Security is not only image - it is also sound. The camera is equipped with a built-in microphone that allows not only precise image recording, but also excellent real-time audio recording. This state-of-the-art camera uses infrared technology that allows you to see freely even when there is total darkness around. This makes it an ideal solution for monitoring your facilities that are left unlit or completely devoid of light sources. Infrared allows you to capture images that are up to 30 meters away.

SPECIFICATION:

Camera type:	Dome IP PoE
Processor:	NT98560
Sensor:	Sony IMX415
Resolution:	8 MPx - 3840x2160
Frame rate:	20
Lens:	2.8mm (view angle 109°)
Night illumination:	Infrared, distance to 20 meters
Wired connection:	10/100 Base-T
SD card:	Yes (to 512GB)
NVR compatibility:	via ONVIF protocol
Built-in speaker:	No
Built-in microphone:	Yes
Alarm events:	Motion detection, Character detection
Alarm connection:	Saving to memory card, FTP server
Alarm notifications:	From the app, to email, Alarm
Reset button:	Yes (Next to the memory card slot)
Dedicated app:	BitVision, IVMS320
Housing:	Metal, IP67
Power supply:	DC12V/0.7A, PoE 802.11 af
Dimensions:	110mm x 110mm x 100mm
Weight:	460g
Additional features:	Intrusion detection, vehicle detection, aimless presence detection, privacy mask
