Switch MELIS

Elegance and performance in one. Take control of your network with this compact desktop switch that combines modern design with superior functionality. Equipped with 8 Gigabit Ethernet ports, the MELIS supports auto-negotiation and automatic MDI/MDIX crossover. As a plug and play device, it requires no pre-configuration - it is ready to use as soon as it is plugged in!

This switch has been designed for home or office applications. One of the unique features of this switch is its ability to power devices using 2 camera adapters on 1 cable. This is particularly useful when installing video surveillance in various locations where access to power is difficult or limited. The MELIS network switch also offers other basic features such as Ethernet protocol support, network security and connection management. It is a versatile and powerful piece of equipment that can be used in a variety of network environments.

SPECIFICATION:

Switch type:	Unmanageable
SFP port:	None
10/100Base-TX PoE port:	None
10/100Base-TX port:	None
10/100/1000Base-TX port:	8
Port isolation mode:	None
Extended range mode:	None
Flow control mode:	None
Automatic crossover:	Yes
Power socket:	5.5/2.1
Power supply from socket:	DC12V/1A
Humidity:	10%~90% (non-condensing)
Operating temperature:	-10°C~55°C
Enclosure:	Metal
Dimensions:	73x175x28mm
Weight:	300g
