## How to configure IPC without Internet Explorer, using Google Chrome browser extension.

This manual refers to Zintronic® all IPC product series and is regarding usage of Google Chrome browser.

## **Table of Contents:**

Section I – Installing IE Tab extension for Google Chrome.

• Installing IE Tab extension from extensions tab.

Section II – Using IE Tab.

- Logging into camera browser panel.
- Downloading and installing ActiveX control for camera.

I. Installing IE Tab extension for Google Chrome.

- Installing IE Tab extension from extensions tab:
- 1. Open Google Chrome.
- 2. In the top right corner click on the icon with three dots.
- 3. Expand option that says "More tools".
- 4. Then go to "Extensions".

	v –	o ×
	🖻 🖈 🛛	<b>(</b>
	New tab New window New Incognito window Ctr	Ctrl+T Ctrl+N l+Shift+N
	History Downloads Bookmarks	► Ctrl+J
	Zoom – 100% + Print	Ctrl+P
	Cast Find	Ctrl+F
Save page as Ctrl+S	More tools	Þ
Create shortcut Name window	Edit Cut Copy	Paste
Clear browsing data Ctrl+Shift+Del	Help	Þ
Extensions		
Task manager Shift+Esc	Exit	
Developer tools Ctrl+Shift+I		

5. There choose icon with three lines in the top left corner.

6. Next click 'Open Chrome Web Store' in the bottom of recently expanded page.

7. In the searchbox type "IE Tab" and push Enter.

8. Choose IE Tab (dark background and characteristic IE logo on a background of chrome icon).

9. Click on a blue button that says "Add to Chrome".

- 10. Open new tab in browser.
- 11. Click on a puzzle icon.

It can:

Read and change all your data on all websites

Communicate with cooperating native applications

II. Using IE Tab.

- Logging into camera browser panel.
- 1. In the newly opened IE Tab page type IPC IP address in the IE search box.

2. Log in to the camera using its login and password.

•••••	 	

- Downloading and installing ActiveX control for camera
- 1. Next in the camera panel download ActiveX (if you never downloaded it, if you did then don't).
- 2. Click 'PC view'.

Welcome!Select what you want to do: <a href="mailto:beta:beta:beta:beta:beta:beta:beta:beta</th> <th></th> <th>IP CAMERA 🕖</th>		IP CAMERA 🕖
<u>PC view</u> <u>Setup software(first time,must connect to the Internet)</u>	We	elcome!Select what you want to do:
Setup software(first time, must connect to the Internet)	PC view	
	Setup software(first time	e,must connect to the Internet)

3. If you already had ActiveX installed that's all, if not click allow in the bottom after installing ActiveX and refresh page, configuration will finish and camera panel will be now available with all options and live view.
